Listen now, this is dedicated to you
My lei of the night
A chilly night to be sure as I am alone
O Sweetheart mine
Come close to me

If only you and I
Could see the fire brands of Makana
It would be a gift for lovers alone
for all eternity
You and I
O Sweetheart mine, come be with me

Intense yearnings fill me
Return to me
Here deep in my heart
Is love's gentle touch
O my darling one

Like a flame it sears
This is love's magic
Stirring warm affections
You are mine
Now and forever
