

Saving Forever - by: Na Leo Pumehana

From the day we're given this gift of life, the search begins to find our voice inside, If we listen to our hearts the deepest part of who we are we can't go wrong 'cause love will be our guide.

There were times I wondered what forever was, Then you walked in and suddenly I knew, Every day we live and breathe, A part of you and you of me, Forever is a dream that just came true

(Chorus:)

I searched my life
I searched my heart
I came so close to giving up
I searched the world
I searched my soul
I thought I'd never be whole
Now I've found
that there is so much more
I know it's you
I've been saving forever for

If we have faith in love it will lead us and we'll be free, to be just who we are, forever you will shine, in every corner of my mind, lighting up the dark, just like the stars

(Chorus:)

No matter where life leads, you're all I'll ever need, It's you and me together, forever

(Chorus: x2)
